MALÅ Easy Locator Pro

GROUND PENETRATING RADAR

The professional's choice for utility mapping

MALÅ

▶ GPR solution designed for utility locating

The Easy Locator-series is the easy-to-use choice for the detection and locating of buried objects such as pipes, cables and other utilities. MALÅ Easy Locator (EL) Pro is the third generation EL, especially designed for utility locating professionals.

Buried utilities are assets that need to be protected. It is essential to obtain precise and reliable information about the location and depth of buried infrastructure.

The MALÅ EL Pro offers the best non-destructive solution to gather subsurface data for both metallic and non-metallic utilities.

Based on real-time sampling technology, the MALÅ EL Pro is faster, offers higher data resolution and significantly better depth of penetration compared to traditional GPR technology.

The MALÅ HDR technology utilizes hyperstacking to reduce random noise; providing an unparalleled level of data quality.

The MALÅ EL Pro comes bundled with MALÅ Object Mapper and MALÅ GPS Mapper software and is also compatible with 3D software.

With the capability of exporting data and its included post-processing software, MALÅ EL Pro is the professional choice for utility locating.

Features

- ▷ Easy-to-use foldable all-in-one unit
- ▷ Outstanding data quality
- ▷ Startup within minutes
- ▷ Results directly on-site
- ▷ Exceptional detection capabilities
- ▷ Fast data acquisition
- ▷ Built-in DGPS for improved positioning
- ▷ Data export and post-processing software

MALÅ Easy Locator Pro

System Configuration

MALÅ EL Pro is an all-in-one system containing a controller and an antenna, linked through a single data/power.

MALÅ Easy Locator Pro

Designed for efficiency

The Easy Locator-series is the easy-to-use choice for the detection and locating of buried objects such as pipes, cables and other utilities.

MALÅ Easy Locator Pro is the third generation EL, especially designed for utility locating professionals. Through unique HDR technology, combined with vast experience of end-users' needs, MALÅ EL Pro provides an easy-to-use GPR solution on a rugged platform.

An all-in-one, foldable system offering results directly onsite.

ABEM | MALÅ World Leading Brands

Guideline Geo is a world-leader in geophysics and geo-technology offering sensors, software, services and support necessary to map and visualize the subsurface. Guideline Geo operates in four international market areas: Infrastructure – examination at start-up and maintenance of infrastructure, Environment – survey of environmental risks and geological hazards, Water – mapping and survey of water supplies and Minerals – efficient exploration. Our offices and regional partners serve clients in 121 countries. The Guideline Geo AB share (GGEO) is listed on NGM Equity.
